## ALL ABOUT US!

Our aim is to provide a stimulating environment in which children can fulfill their potential both academically and socially. Also, in order to ensure each child receives the individual attention that is needed at this age, Happy Days caters to a small group working alongside each child meeting their individual needs.

## OUR METHODS

At Happy Days our program incorporates the Montessori approach along with the local Ministry's Early Childhood Curriculum. Also, in teaching, the constructivist approach is adopted in which we believe the children learn by doing and by being actively involved in their learning.

"The child making use of all that he finds around him, shapes himself for the future."
